SUMMARY

Highly motivated **Full-Stack Developer** specializing in **React.js**, **TypeScript**, and **Node.js**. Expert in building modern, responsive **Single Page Applications (SPAs)** and robust backend systems. Proficient in **Agile methodologies**, **RESTful APIs**, and **Continuous Integration/Continuous Deployment (CI/CD)** practices. Passionate about delivering user-centric solutions with clean, scalable code. Strong team collaborator with excellent problem-solving skills and experience in **Test-Driven Development (TDD)**.

SKILLS

- Frontend:** JavaScript, TypeScript, React.js, Redux, React-Query, Next.js, Tailwind CSS, SASS, CSS, Bootstrap, Angular.js, Responsive design, Material-UI,
- Backend:** Node.js, Nest.js, Express.js, Python
- Database:** MySQL, MongoDB,
- PM Tools:** Github, Bitbucket, Jira, YouTrack, Trello
- Services:** AWS, Docker, Azure

EXPERIENCE

Freelance project | Malam

- Developed a streamlined solution to facilitate easy access to Microsoft calendars.
- Designed and implemented both frontend and backend components using **React.js**, **Node.js**, and **MongoDB**.
- Leveraged **Microsoft Graph API** for seamless integration with Microsoft calendars.
- Implemented **RESTful APIs** and ensured **cross-platform compatibility**.

React Frontend Developer | Noviopus (apprenticeship) June 2023 - January 2024

- Developed accessible, user-friendly interfaces using **React.js**, **Redux**, and **TypeScript** within an **Agile** environment.
- Collaborated with cross-functional teams to enhance and maintain a job-focused platform, improving user experience.
- Contributed to code reviews and implemented best practices to ensure high-quality, maintainable code.

Personal Projects

- Built full-stack web applications, showcasing proficiency in **React.js**, **TypeScript**, **Node.js**, **Express.js**, and **MongoDB**.
- Designed dynamic user interfaces and robust server-side logic for smooth user experiences.
- Implemented features using **RESTful APIs** and **Asynchronous Programming**.
- Applied **Test-Driven Development (TDD)** methodologies to ensure code reliability.

- Portfolio:** <https://al-portfolio-seven.vercel.app>

EDUCATION

Full Stack Developer 2022 - 2023 | John Bryce (Graduated with Honors)

- Acquired comprehensive knowledge of full-stack development tools and technologies.
- Successfully executed projects involving both frontend and backend development.
- Gained hands-on experience through intensive coursework and practical assignments.
- Developed a capstone project that integrated multiple technologies learned during the program.
